

The blaugelb Window Handle FGS 90° form lockable made from high-grade stainless steel, in an elegant and timeless design.

blaugelb Window Handle FGS 90° form lockable 200 Nm

Timeless design combined with high-grade stainless steel for wooden, plastic and aluminium window frames.

- High-grade materials for durability
- Lockable 200 Nm (SK 3)
- 4-ball substructure for precision detent
- Attractive and elegant on the window
- Concealed screws

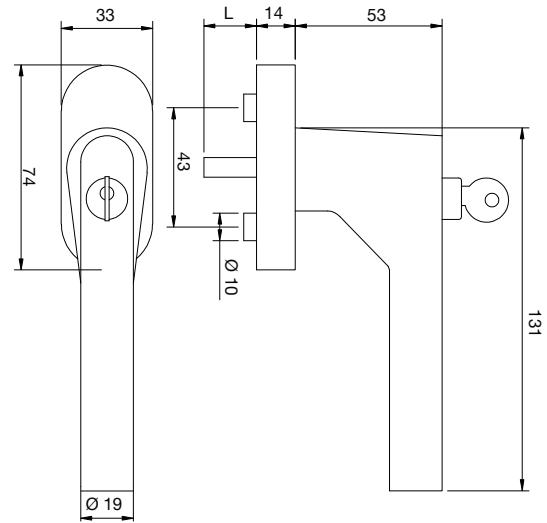

Product features:

The blaugelb Window Handle FGS 90° form lockable 200 Nm made from high-grade stainless steel is notable for its elegance and straight lines, and looks good on every window.

The lockable window handle is tested according to DIN EN 13126:2012 and achieves protective effect class SK 3 at 200 Nm. The push cylinder is simultaneous-locking and is integrated into the handle.

Thanks to the metal substructure with a concealed precision 4-ball detent mechanism, the window handle is always perfectly positioned in relation to the rosette and completes the high-quality overall impression. The screw connections are concealed and the clip-on trim rosette is in a matching finish to the handle surface.

The blaugelb Window Handle FGS 90° form lockable 200 Nm is supplied complete with fastening for the appropriate pin length and two keys.

Product benefits:

- High-grade materials for durability
- Lockable 200 Nm (SK 3)
- 4-ball substructure for precision detent
- Attractive and elegant on the window
- Concealed screws
