

The reliable solution for your handrails and banisters –
the blaugelb Handrail Supports.

blaugelb Handrail Support flat edition

The sound solution for handrails – including on stairways.

- High-grade materials for durable service
- Flat bearing plate
- High outreach of 64 mm

Product features:

The blaugelb Handrail Support flat edition is a sound solution made from solid light alloy for attaching handrails and banisters to walls. The high-grade materials used are long-lasting and therefore perform the task reliably.

Screw connection directly to the wall by means of three attachment points in the base.

Product benefits:

- High-grade materials for durable service
- Flat bearing plate
- High outreach of 64 mm
