

The reliable solution for your handrails and banisters –  
the blaugelb Handrail Supports.

## blaugelb Handrail Support curved edition

The sound solution for handrails – including on stairways.

- High-grade materials for durable service
- Curved bearing plate
- High outreach of 64 mm

**Product features:**

The blaugelb Handrail Support curved edition is a sound solution made from solid light alloy or stainless steel for attaching handrails and banisters to walls. The high-grade materials used are long-lasting and therefore perform the task reliably.

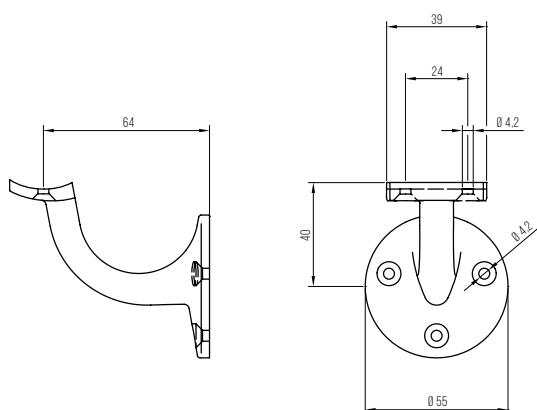

Screw connection directly to the wall by means of three attachment points in the base.

**Product benefits:**

- High-grade materials for durable service
- Curved bearing plate
- High outreach of 64 mm
