

## blaugelb Profile Double Cylinder PDZ Two-Sided Emergency Function

The 6-pin profile double cylinder with emergency function on both sides and increased anti-intruder protection.

- 6-pin profile double cylinder with paracentric key profile for individual locks
- Emergency function on both sides
- Increased intrusion protection – standard drilling and pull protection
- Cylinder outer core and cylinder outer housing with hard metal drilling protection
- Housing locking pin for securing a broken off cylinder housing behind the security plate
- Tested according to DIN EN 1303:2015-08, thereby fulfils DIN 18252:2018-05
- Lock cylinder with 3 keys

# blaugelb Profile Double Cylinder PDZ Two-Sided Emergency Function

The 6-pin profile double cylinder with emergency function on both sides and increased anti-intruder protection.

## Product features:

The blaugelb Profile Double Cylinders PDZ Two-Sided Emergency Function are made of nickel-plated brass and have a 6-pin normal profile with a paracentric key profile for individual locks. The cylinder can be opened if a key is inserted on the other side. The cylinders are protected against mechanical attacks – they are ready with increased intrusion protection through a two-sided drilling and pull protection.

Thanks to their architecture and the confirmed testing properties, the blaugelb Profile Double Cylinders PDZ Two-Sided Emergency Function can be installed in an RC 1 N / RC 2 N / RC 2 / RC 3 system together with a Class ES 1 security plate without an additional cylinder cover.

The blaugelb profile double cylinders are tested in accordance with DIN EN 1303:2015-08 and are supplied with three keys from the factory. These have an elongated key shaft for use with pull protection rosettes without springs as well as a larger area that protrudes when the key is in the lock for more comfortable handling. The punch in the key bow for the key ring is also suitable for lifting/sliding doors as it is positioned within the protruding area.

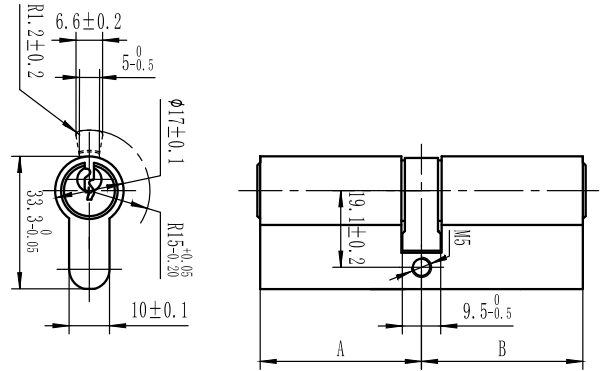

The blaugelb Profile Double Cylinders PDZ Two-Sided Emergency Function are individually keyed and are available in different installation lengths.

## Product benefits:

- 6-pin profile double cylinder with paracentric key profile for individual locks
- Emergency function on both sides
- Increased intrusion protection – standard drilling and pull protection
- Cylinder outer core and cylinder outer housing with hard metal drilling protection
- Housing locking pin for securing a broken off cylinder housing behind the security plate
- Tested according to DIN EN 1303:2015-08, thereby fulfils DIN 18252:2018-05
- Lock cylinder with 3 keys

## Technical data:

Material:	Brass, nickel-plated
Number of pins:	6 pins per side
Emergency function:	On both sides
Classification code: <b>DIN EN 1303:2015-08</b>	<b>1 6 0 B 0 C 6 D</b>
Number of keys:	3
Key material:	Steel, nickel-plated
Fixing screw:	M5 x 80 mm (included in scope of supply)
Packing unit:	1 cylinder, 3 keys
