

blaugelb Profile Knob Cylinder PKZ

The 6-pin profile knob cylinder with increased anti-intruder protection.

- 6-pin profile knob cylinder with paracentric key profile for individual locks
- Increased intrusion protection – standard drilling and pull protection
- Cylinder outer core and cylinder outer housing with hard metal drilling protection
- Housing locking pin for securing a broken off cylinder housing behind the security plate
- Tested according to DIN EN 1303:2015-08, thereby fulfils DIN 18252:2018-05
- Lock cylinder with 3 keys

Product features:

The blaugelb Profile Knob Cylinders PKZ are made of nickel-plated brass and have a 6-pin normal profile with a paracentric key profile for individual locks. The key can be inserted in all positions of the rotary knob; the locking cam is always connected to the knob. The cylinders are protected against mechanical attacks – they are ready with increased intrusion protection through a standard drilling and pull protection.

Thanks to their architecture and the confirmed testing properties, the blaugelb Profile Knob Cylinders PKZ can be installed in an RC 1 N / RC 2 N / RC 2 / RC 3 system together with a Class ES 1 security plate without an additional cylinder cover.

The blaugelb profile knob cylinders are tested in accordance with DIN EN 1303:2015-08 and are supplied with three keys from the factory. These have an elongated key shaft for use with pull protection rosettes without springs as well as a larger area that protrudes when the key is in the lock for more comfortable handling. The punch in the key bow for the key ring is also suitable for lifting/sliding doors as it is positioned within the protruding area.

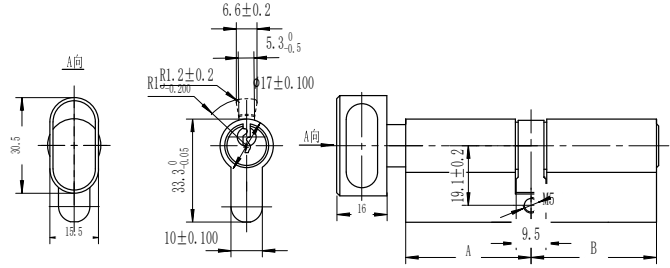

The blaugelb Profile Knob Cylinders PKZ are individually keyed and are available in different installation lengths.

Product benefits:

- 6-pin profile knob cylinder with paracentric key profile for individual locks
- Increased intrusion protection – standard drilling and pull protection
- Cylinder outer core and cylinder outer housing with hard metal drilling protection
- Housing locking pin for securing a broken off cylinder housing behind the security plate
- Tested according to DIN EN 1303:2015-08, thereby fulfils DIN 18252:2018-05
- Lock cylinder with 3 keys

Technical data:

| | |
|--|--|
| Material: | Brass, nickel-plated |
| Number of pins: | 6 pins per side |
| Emergency function: | On one side |
| Classification code: DIN EN 1303:2015-08 | 1 6 0 B 0 C 6 D |
| Number of keys: | 3 |
| Key material: | Steel, nickel-plated |
| Fixing screw: | M5 x 80 mm (included in scope of supply) |
| Packing unit: | 1 cylinder, 3 keys |
