- **Can be used on left or right**
- **Elegant appearance on the door**
- **Concealed screws**

blaugelb FDHS 90° U-shape anti-panic

Tested safety for emergency exit doors.

Product features:

The blaugelb Framed Door Handle Set 90° U-shape AP on an oval rosette is suitable for escape doors in accordance with DIN EN 179 (emergency exit doors) and for fire and smoke doors with increased safety requirements in accordance with DIN 18273 and has been tested. The set has maintenance-free plain bearings and the holding springs used guarantee exact positioning of the handle.

The attractive, elegant set made of high-quality stainless steel is secured by means of concealed screws. The provided fastening solution (without square pin) for aluminium doors comprises blind rivet nuts and the associated metric screws that ensure secure seating on the door leaf.

Please note that panic locks with split nut and panic hardware are not suitable for doors that are in continuous use, but instead are only designed for emergencies. The blaugelb Anti-Panic Square Pin is available separately and is to be selected in accordance with the schematic drawing so that it suits your door thickness or the door/lock combination.

Our blaugelb Anti-Panic Square Pins generally contain two dimensions in the name. The first of these is the interior dimension (SI) and the second is the exterior dimension (SA).

Example: blaugelb Anti-Panic Square Pin 9 mm, 52/53.5 mm galv.

Product benefits:

- High-quality materials
- Anti-panic set tested in accordance with DIN EN 179 and DIN 18273
- Can also be used as a fire safety set
