# blaugelb Door Handle cone point with grooves

Everything firmly in hand – stainless steel door handles from blaugelb.

## Product features:

This blaugelb Door Handle offers a quirky appearance. The round curved bases of the door handle cone point with grooves are precision cast from high-grade stainless steel and accommodate the handle bar in cavities specially tailored to the diameter of the handle bar.

The rather classic design of this blaugelb Door Handle cone point with grooves is complemented by the tapered and slightly pointed ends and the delicately designed double grooves that are machined into the handle bar with extreme accuracy.

The blaugelb Door Handle cone point with grooves has also been designed in accordance with the strictest safety requirements and offers excellent resistance to signs of wear. When properly fitted on the front door or other door types, blaugelb Door handles cone point with grooves show no signs of fatigue even after prolonged usage. No loosening of the base on the handle bar, no dangling from the door – these are crystal-clear arguments for this blaugelb Door Handle series also.

When combined with the safe and easy-to-assemble blaugelb fixing systems for different door types, blaugelb Door Handles are a reliable solution for the door.

blaugelb stainless steel door handles can be used without any problem on the following door types:

- On aluminium doors
- On plastic doors
- On wooden doors
