blaugelb Sliding Door Lever Handles HSG 1050 AL

Timeless design combined with high-grade surfaces for wooden, plastic and aluminium window doors.

Product features:

The blaugelb Sliding Door Lever Handles HSG 1050 AL made from aluminium are notable for their elegance and straight lines, and look good on every door. The straight lines of the 90° form emphasise the modern credentials of the handle series. The blaugelb Sliding Door Lever Handles HSG 1050 AL are available in a variety of versions for interior and exterior use, and are also suitable for increased security aspects with the use of profile cylinders. The substructure has a precision double detent mechanism and enhances the overall impression of high quality. The handles are supplied with the appropriate fastenings* for door thicknesses of 60 – 70 mm.

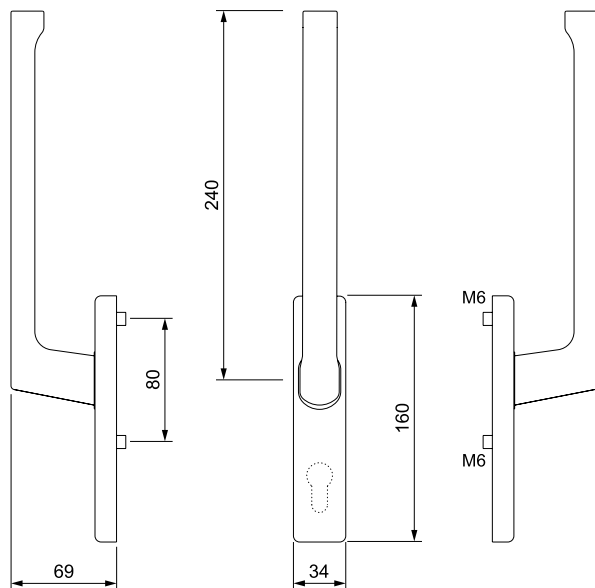

Product benefits:

- High-grade materials for durability
- Lever mounted fixed/pivoting
- Attractive and elegant on window and balcony doors
- Concealed screws
